

BIGARNY DANIEL GUTIÉRREZ LOVO

Key Accounts • Logistics Operations • Commercial Operations & Sales

Data Analysis | Process Improvement | AI Business Automation | Bilingual Spanish-English

Managua, Nicaragua • +505 8686 3416 • nanygutierrez2003@gmail.com

PROFESSIONAL PROFILE

Operations professional with an Industrial Engineering background and a career built in deliberate stages: sales and customer experience in the U.S. market (Nordstrom, Amazon, Toyota), key account management and last-mile logistics operations (UniUni Express), and specialized training in data analysis and AI-powered business automation.

Ran the day-to-day operations of a portfolio of approximately 15 key accounts for a U.S. last-mile logistics company, resolving 40-70 cases per week, coordinating with warehouses and operations teams to protect service levels, and preparing the claim analysis and invoice reporting that Finance used for review and approval.

Profile transferable to commercial, distribution and supply chain operations in corporate FMCG environments, backed by specialized training in Claude Code and Claude Cowork to automate business processes and deploy autonomous agents. Bilingual Spanish-English at professional level, with proven experience working remotely with corporate clients and teams in the United States.

CORE COMPETENCIES

Commercial & Distribution Operations: Last-mile logistics • Warehouse and distribution centre coordination • Delivery exceptions and Return to Sender (RTS) • Shipment traceability • SLA compliance • Operational control

Key Accounts & Client Management: Key account portfolio management • Client relationship management • Customer success and retention • Sales-cycle support • Quotations and product advisory • Escalation handling

Data, Reporting & Process: Advanced Excel • Power BI • Data consolidation and cleansing • Weekly reporting and KPIs • Claims analysis • Invoice support • Documentation and process improvement (SOPs)

Technology, AI & Automation: Claude Code • Claude Cowork • Plugins and skills • Autonomous agents • Business process automation • Freshdesk (CRM) • Google Workspace • Notion

Languages & Licence: Spanish (native) • English (professional / bilingual) • Driver's licence Category 3 (valid)

PROFESSIONAL EXPERIENCE

UniUni Express — Last-mile logistics — U.S. operations

January 2025 – August 2026

Key Account Representative • Remote

Employer of record: WorkWiser (Nicaragua) — UniUni Express account

- **Key account management** — Operational point of contact for a portfolio of approximately 15 corporate key accounts, working in direct support of the Key Account Manager on status communication, issue resolution and service commitments.
- **Last-mile logistics operations** — Investigated and resolved lost and damaged packages, delivery exceptions, address updates and Return to Sender (RTS) cases across the U.S. distribution network.
- **Cross-functional coordination** — Daily liaison between clients, warehouses, operations teams and Finance to unblock critical cases and sustain agreed service levels (SLAs).
- **Claims management** — Consolidated evidence, validated cases and prepared estimated credit amounts per client; files were submitted to Finance, the team responsible for final review and approval.
- **Reporting & invoice support** — Produced weekly claim reports and invoice trackers for logistics partners, feeding directly into the reconciliation and billing cycle.
- **Data analysis** — Maintained operational trackers (package inquiries, daily exception reports and investigation logs) in Excel and Power BI, identifying recurring patterns by account, route and distribution centre.
- **Process improvement** — Standardized case documentation and follow-up workflows in line with company SOPs, reducing rework and repeat inquiries on high-priority accounts.
- **Volume & performance** — Handled 40-70 cases weekly to quality standards, with timely follow-up and professional handling of client-sensitive escalations.

Tools: Freshdesk • Microsoft Excel • Power BI • UniMap • Google Workspace • CRM systems

Toyota — California, United States

November 2022 – March 2023

Sales Advisor

- **Consultative selling** — Analysed customer needs and recommended products across a broad portfolio, translating requirements and budget into the right configuration.
- **Full sales cycle** — Handled inquiries, quotations, financing options and documentation through to closing.
- **Commercial relationships** — Built trust-based relationships and post-sale follow-up on a high-value product with a long decision cycle.

Amazon — California, United States

June 2022 – October 2022

Customer Service Associate

- Multichannel support (chat and phone) resolving order, delivery, refund and account issues within a large-scale e-commerce and logistics operation.
- Consistently met productivity and quality metrics in a high-volume, tight-turnaround environment.

Nordstrom — California, United States

December 2021 – April 2022

Sales Associate

- Delivered a premium customer experience at a high-volume point of sale, with strong product portfolio knowledge and personalized recommendations.
- Met sales targets while upholding the service standards of a premium-positioned brand.

AI & BUSINESS AUTOMATION

Specialized training: Master Claude Code, Plugins and Skills to Build AI Applications, Automate Business with Cowork, Deploy Autonomous Agents

- Building AI applications with Claude Code, plugins and custom skills.
- Business process automation with Claude Cowork: recurring reporting, information consolidation and operational documentation.
- Design and deployment of autonomous agents and agentic workflows applied to administrative and operational tasks.
- Judgement on which processes are worth automating and which must retain human review and approval.

FEATURED PROFESSIONAL PROJECT

Claims process and invoice reporting optimization

Professional case study — anonymized portfolio version available

- **Problem** — Client claims scattered across multiple sources, with no single evidence format and no traceability of case status.
- **Intervention** — Consolidated the information into a single tracker, analysed and classified claims by type and root cause, and prepared the credit estimates and invoice reports.
- **Outcome** — Complete, consistent files for Finance review, weekly reports ready for the billing cycle, and visibility of recurring claim types by account and network point.
- **Scope of responsibility** — Approval of credits, credit notes and billing adjustments sat with Finance; my responsibility was to prepare, analyse and document the operational information supporting that decision.

EDUCATION

Universidad Americana (UAM) — Managua, Nicaragua

2023 – 2025

Bachelor's Degree in Industrial Engineering

Keiser University — Managua, Nicaragua

2020 – 2021

English for International Communication

Languages: Spanish (native) • English (professional / bilingual) | Driver's licence: Category 3 (valid)
